

REACH Compliance Statement

TASCO Thompson & Sons fully supports the objectives of REACH, which aims to improve the protection of human health and the environment through the better and earlier identification of harmful chemical properties. TASCO Thompson & Sons does not deliver any chemical products or chemical substances. Products manufactured and sold by TASCO Thompson & Sons are not designed to release any chemical substance under normal and reasonably predictable conditions during their lifespan. Therefore, as per REACH requirements, TASCO Thompson & Sons products do not need to be registered as they are not subject to the obligations of a manufacturer or importer of chemical substances.

TASCO Thompson & Sons confirms, to our current state of knowledge, all manufactured products and components do not contain any substances that are listed on the SVHC (Substances of Very High Concern) in amounts greater than the 0.1% by weight listed limit per European Chemical Agency (ECHA) under the provisions of Regulation (EC) No. 1907/2006.

TASCO Thompson & Sons will continue to work with suppliers to comply with REACH requirements.

Please refer to the ECHA list for the most current candidate list of substances:

<http://echa.europa.eu/candidatelist-table>.

Additional information on the European Union's REACH regulation can be found here:

<https://echa.europa.eu/regulations/reach/understanding-reach>.
